

CODE OF CONDUCT

PURPOSE:

There is no facility like the 3DLAB in the world - this project is an awesome opportunity to enrich your architectural design through technology.

THE VALUES:

Respect. It is a privilege of the ETH to be able to work with this facility, please use it appropriately.

Fun. Don't be intimidated by all those new technologies, really use the chance to go a bit crazy and explore the possibilities of 3D printing.

Communication. Don't be afraid to ask questions. Feel free to approach us from the HYTAC Team directly - we are always up for a chat.

Community. Try to help and learn from each other.

OUR GUIDING BEHAVIORS:

Keep the facility clean.

Always close the 3D LAB doors.

Treat your fellow students with respect.

Do not take SD-cards, filament, etc. from other students without permission.
